Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Tuesday 02 Feb 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Snow Tuesday, gradually becoming confined to hills. Cold and windy.

Today:
A spell of persistent and heavy snow is likely during Tuesday morning, with some significant accumulations likely in places. The snow gradually becoming confined to hills later in the day. Windy and cold. Maximum temperature 3 deg C (37 deg F).

Tonight:
Further outbreaks of rain overnight, some heavy, and still falling as snow across the tops of the Pennines and Cheviots. Cold and windy. Minimum temperature 1 deg C (34 deg F).

Wednesday:
Further outbreaks of rain persisting but any snow likely to be confined to the hill tops in the north. Strong winds becoming confined to the north. Still generally cold. Maximum temperature 4 deg C (39 deg F).

Outlook for Thursday to Saturday:
Thursday, rain persisting in the north, drier interludes in south, where less cold. Friday and Saturday, further spells of rain likely, turning wintry later as colder east winds develop.
